

## Wednesday Challenge Form

Group Members: Jaden and Will

Problem Statement: The challenge was to make  
A perfect 1 foot by 1 foot square

Approach: Well we just decided to make the  
Cuts and turn it in. We didn't have any technique  
Or strategy to it. I over thought on the cutting  
And I wasted all of our time. It was all my fault  
Because I was stressing out over it for some  
Reason

Solution: We made the square and came in  
Last.

Lessons Learned: Don't over stress on the  
Simple things.
